PREFACE

INVENTIVE: A JOURNAL OF MULTIDISCIPLINARY STUDIES is a peer reviewed journal of multidisciplinary researches and studies. It includes various disciplines of Humanities, Social Sciences, Management, Science and Educational pedagogy. Publishing bi-annually both on online and printed version, it aims to provide a common platform of engaging in academic discourse of sharing knowledge of diverse fields. All novice researchers, academicians and professionals are encouraged to contribute their articles with innovative and original ideas. The submitted articles are scrutinized through the rigorous process of peer review before they are finally selected for publication. This volume consists of nine articles in the spatio-temporal philosophy of various disciplines.
